Electrical Exam Prep
How to Navigate the 2017 National Electric Code

About This Class:
Looking to take either your Journeyman or Master Electrical Exam? Or do you want to brush up on your skills in using the NEC? You won't want to miss out on these four hours of virtual live training, based on the 2017 NEC! With an Internet connection and a tablet or laptop, you can access this class at a location of your choice.

From helpful tips on reading and using the 2017 National Electrical Code (EC®) book to reviewing electrical principals to help you solve exam questions and taking short mock exams, this introductory class is sure to get you started on the right path.

Who Should Attend:
This on-line virtual live course is for anyone who wants to learn to navigate the 2017 NEC®. It is approved for 4 CEU hours for the State of Wisconsin.

Instructor:
Joe Hertel, retired chief electrical engineer for the State of Wisconsin, who has been involved in writing state electrical exams in the past and is a wealth of electrical code knowledge.

Dates: February 16 & 18, 2021

Time: 5:00 pm to 7:00 pm CST (4 total hours)

Cost: Apprentices / ABC members--$60

Format:
Each session will be two hours and will include time to work on practice questions.

Session #1: Overview National Electrical Code. How to find answers to common questions.

Session #2: NEC® questions and answers.

Worksheets:
Before each module starts, a PDF of the worksheet for that module will be sent in an email to download. The worksheet should be printed out in advance.

How it Works:
Upon registration, you will receive an automated email invitation to the class. Further directions and worksheets will be emailed to you approximately two days before the class starts.

Counts for CEU & Unpaid Related Instruction Hours!
